Company Profile

IG Elements, part of the award winning Keystone Group of companies is proud to bring to you our diverse range of offsite building components. Designed using the latest CAD 3D technology all our products are authentic detailed reproductions of traditional materials manufactured using the latest 'RTM' moulding techniques.

IG is a tried and trusted name in building products with almost 60 years' experience in design excellence, quality manufacturing and efficient service to the trade.

When dealing with IG Elements you are assured the same high quality of product and service that is the cornerstone of the Keystone Group. Our nationwide sales and customer service teams will provide you with the support you need, ensuring 100% satisfaction from the brand you know. When specifying offsite building components, think IG.

Technical support

IG provides comprehensive technical support across the full range of GRP building components. By contacting IG at an early stage of your design process you will potentially gain significantly more design flexibility for the overall project.

Manufacturing

IG manufactures components to ISO 9001 standards. This certification ensures a consistently high level of product quality and performance across our range.

Delivery

IG's fast, efficient delivery service to site is renowned throughout the construction industry. Each customer's needs are personally managed to ensure that components are delivered against an agreed schedule and time frame.
